PATENT COOPERATION TREATY

From	the:

INTERN ONAL PRELIMINARY EXA	MINING AUTHORITY		1100
To: Davies Collison Cave Level 15 I Nicholson Street MELBOURNE VIC 3000		INTERI REPC	PCT ATION OF TRANSMITTAL OF NATIONAL PRELIMINARY ORT ON PATENTABILITY of the Patent Cooperation Treaty) (PCT Rule 71.1) 1 8 JUL 2005
Applicant's or agent's file reference 12571370/DH/JPN/EJL		ІМРО	RTANT NOTIFICATION
International application No. PCT/AU2004/000978 Applicant	International filing of 21 July 2004	late (doy/month/year)	Priority date (day/month/year) 22 July 2003

NAUTITECH PTY LTD et al

- 1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
- A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Burcau will prepare an English translation of the report (but not of any annexes) and will transmit such translations to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.
